

4T MOTORCYCLE OIL API: SL

SYNTHETIC / SEMI SYNTHETIC / MINERAL

Magic Plus 4T SL is a synthetic four stroke oil, designed for use in high performance air and liquid cooled motorcycle engines operating under a wide variety of conditions, including severe operations. It is formulated with premium quality base oils in combination with shear stable viscosity index (VI) improvers and a robust additive package, providing a multifunctional oil for engines requiring JASO MA2 or MA and API SL lubricants. It helps provide outstanding engine cleanliness, exceptional wear protection at high temperatures and highly effective protection from corrosion. It helps extend engine life and minimize deposit formation in high-performance motorcycle engines.

Features & Benefits:

- Offers good engine/transmission keep-clean performance
- Helps reduce wear in highly stressed engines and gearboxes
- For optimum power release and smooth clutch operation
- Added protection against harmful deposits
- Formulated for cold start-up and high temperature protection
- Reduces engine heat damage – delivers continuous and superior oil stability

Applications:

High performance air and water cooled four stroke motorcycle engines, including race-tuned and ones with integral gearboxes and wet clutches.

Recommended for all 4-Stroke motorcycles including cruisers and off-road motorcycles.

Specifications, Approvals & Recommendations: (Meets / Exceeds)

- API: SL
- JASO MA2

Technical Data:

Parameters	ASTM	Unit	Typical Results					
			5W-40	10W-30	10W-40	10W-60	20W-40	20W-50
